EXPERIENCES

Lead Web Developer

Jun 2018 - Aug 2019 . 1 yr . 3 mos

L-Future Network Technology Co.,Ltd

First and foremost, I was given the opportunity to develop Bulk SMS Service Provider within 3 months as a Senior Web Developer. When the project finished on time and released without any problems, they realized my skills and experience. And then I was promoted to Lead Web Developer. Gathering and understanding user requirements as well as designing and adding advanced features in databases for various Software Projects. Write Clean, Well-Documented and Resilient Code, mentoring 4+ Seniors and Juniors. Managed 7+ team members.

Full-stack Developer

Jan, 2017 - Dec, 2018 . 2yrs

Freelance Software Development

I've developed SME Web Applications, Window Form App and Game. And I discussed with 5+ clients about their customize application requirements and designed database. Developed, Tested, Deployed and Maintained.

Web Application Developer

Jan, 2017 - Apr, 2018 . 1 yr . 1 mo

Mounts Digital Startup

Developed various web app using Laravel, VueJS, MySQL. Worked with Mobile Developers, Web Developers and Web Designer. I've designed database, developed, tested, maintained, managed and reported directly situation of the project to the CEO.

Junior Software Developer

Nov, 2014 - Nov, 2016 . 2 yrs . 1 mo

ITSTAR Software Development

I worked as a Junior Software Developer for 2 years and I've got a lot of experience (Developing Large, Long-lived Software Systems, Data Manipulation). I've developed 8+ Projects (SME Windows Form Application and Web Application using C#, Asp .net Core, MsSql, AngularJS (Typescript), SPA)
